

ENSIGN Evo

Introducing the (R)Evolution of Pads for Digital Onboarding, Authentication, and Digital Signatures!

ENSIGN Evo is more than a leap; it's a **revolution**.

It combines multiple technologies to shape an **all-in-one pad for digital identity and signature**.

Perfectly balancing aesthetics with high-end functionality, it's tailor-made for modern businesses aiming for **excellence and efficiency** during their everyday processes.

Unlock the Power of Paperless Efficiency

One pad, multiple use cases, one experience

ENSIGN Evo is developed to meet clients needs of streamlining **user identification and signature** processes to obtain a smoother, faster, secure and more efficient customer experience.

Digital Onboarding

Seamlessly Welcome Customers into the Digital Era

- Easy customizable and compliant **Workflow**
- **Fast Data Collection** avoiding human errors
- Secure **Face-Matching and Liveness verification**
- Seamless **integration** with any system

Authentication

Enhance Security and Trust in Every Transaction

- Frictionless **identity authentication** for services access
- Advanced **security features**

Biometric Signature

Empower Efficiency and Compliance

- **Legally binding and tamper-proof** electronic signatures

Empowering your brand image

EURONOVATE
group

Every detail is crafted, ensuring that it isn't just another device but an extension of your brand's image. Choose to **silkscreen your distinct company logo** directly on the tablet's glass surface, creating an indelible impression. Customize even further by selecting a color for specific sections of the tablet's sleek body.
